POLICY

It is the policy of the society to allow tenants to live in their homes as long as they choose to do so.

Where the ability of tenants to live independently is compromised, or their personal safety is in doubt, staff will first seek ways to support the tenant's ability to age in place in an independent and safe manner. This may include physical modification to the unit, helping them to find outside personal support, etc.

The society may, with consent of the tenant, contact the tenant's emergency contact to discuss health or safety concerns and options that best meet the tenant's housing needs.
